

Financial Data Analysis III

Panel Data Analysis with R September 23-24, 2011

Description:

The Rmetrics Association (Asia Chapter), in collaboration with IGIDR, is offering a high quality workshop in programming with R.

The course consists of four blocks, composed of 50% lecture, 20% examples and 30% case studies.

This workshop on *Panel Data Analysis* is being conducted as a part of the series of workshops on *Financial Data Analysis Using R* from 22nd September to 24th September, 2011, preceded by a one day workshop on *Programming with R: A Pragmatic Introduction*.

Course Topics:

- Panel Data Modelling
- Advanced Panel Data Visualization using Lattice
- Modelling binary/discrete outcomes:
 - Probit Models
 - Logit Models
- Estimation of probability of credit card payments defaults
- Estimation of probability of firm default

Course Audience:

This is a hands-on course on Panel Data Analysis. The course is well suited for credit risk managers, operational risk managers, professionals involved in financial data modeling, credit card default estimate, computing default probability of firms and other forms of data analytics.

*Participants are required to bring Laptops with them.

*For participants not well conversant with R, Programming with R: A Pragmatic Introduction is a one-day workshop to introduce R, held the day before the 2-day panel data analysis workshop (on 22nd Sept).

Pricing Information:

	For Students & Academia (INR)	For Industry Professionals (INR)
2-day Panel Data Workshop	13,000*	26,000*
3-day Panel Data Workshop with first day Introductory R Workshop	16,000*	32,000*

*Fees are inclusive of all taxes. Fees include Course Material, Lunch and Light Refreshment.

- The course also offers Rmetrics e-books at discount.
- For more details and availability of books please visit <https://www.rmetrics.org/ebooks>
- **Limited accommodation** is available to outstation participants.
- For reservations and more details please contact us.
