

India's Digital Cash

UPI: Impact on Customers and FinTech players

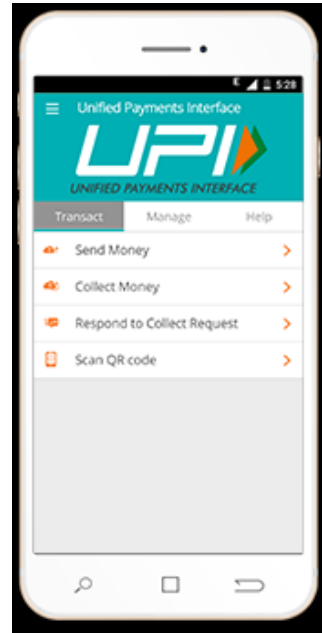

***IGIDR-Paypal roundtable on
Harnessing FinTech potential for India
Mumbai, 5th October, 2016***

Unified Payment Interface (UPI)

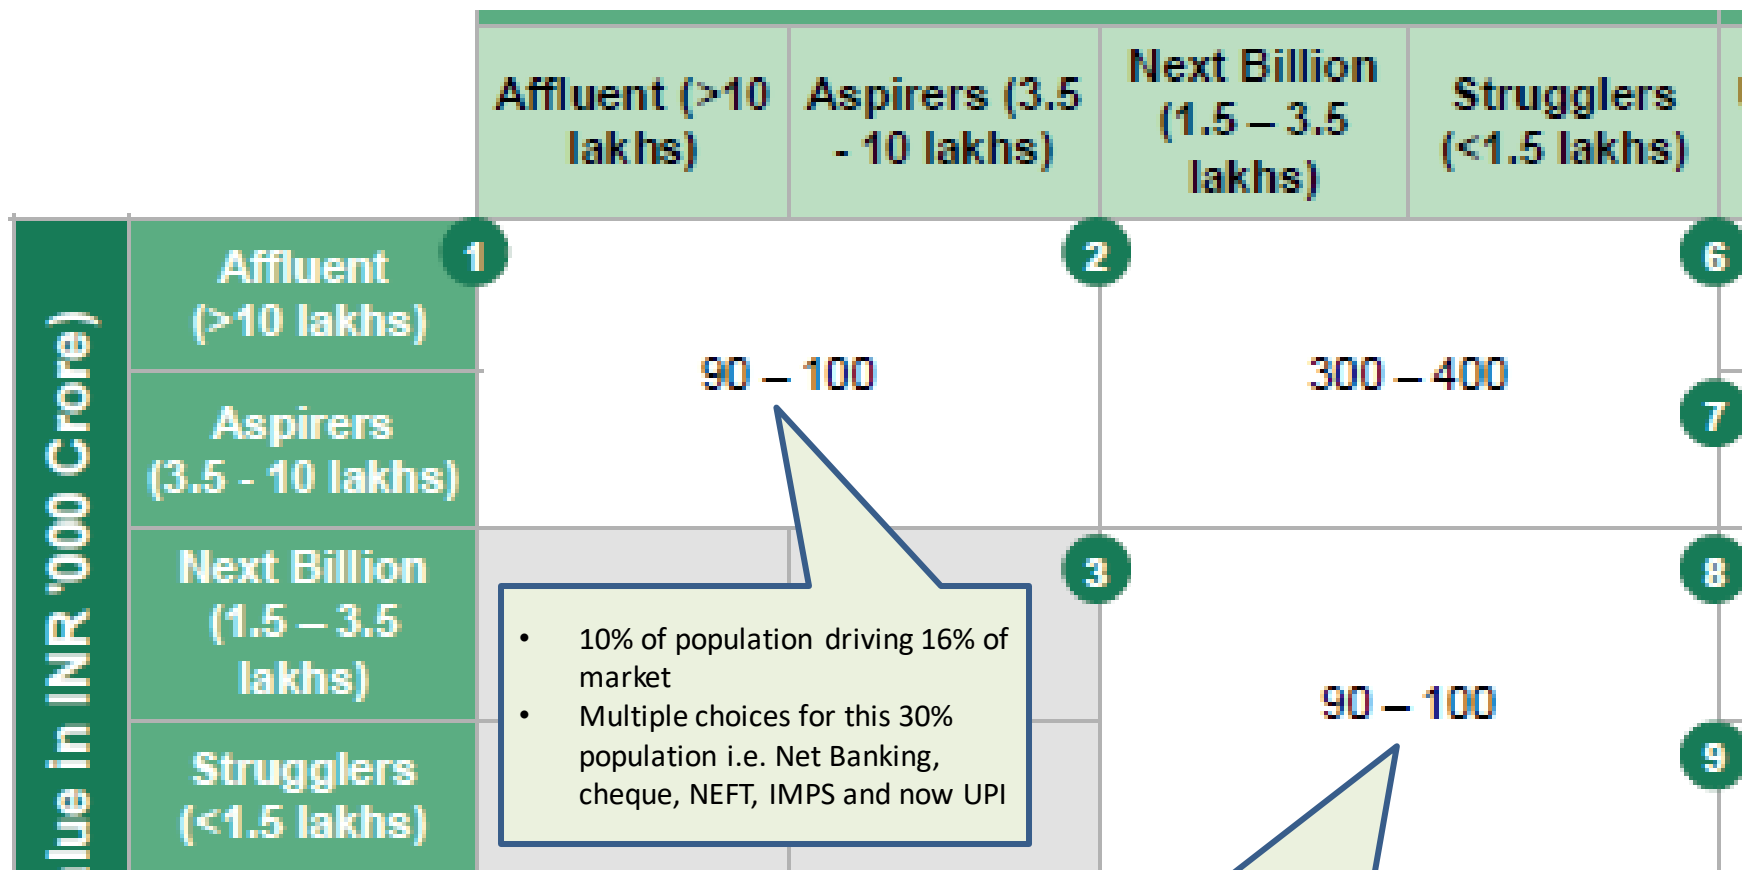

UPI Current Status

- **UPI Services live**
 - **P2P pay**
 - **P2P collect**
- **Consumer Prerequisite**
 - **Smart Phone**
 - **Bank Account with 20 banks which are live**
 - **Mobile Banking Registration**
 - **Currently on Android OS**
- **Key decisions taken by Steering committee at NPCI which is same as for IMPS**
- **Transaction limit of 1lac against 2lac of IMPS for bank account transfer**
- **Can use any bank UPI app for P2P service and not necessarily the customer bank alone**

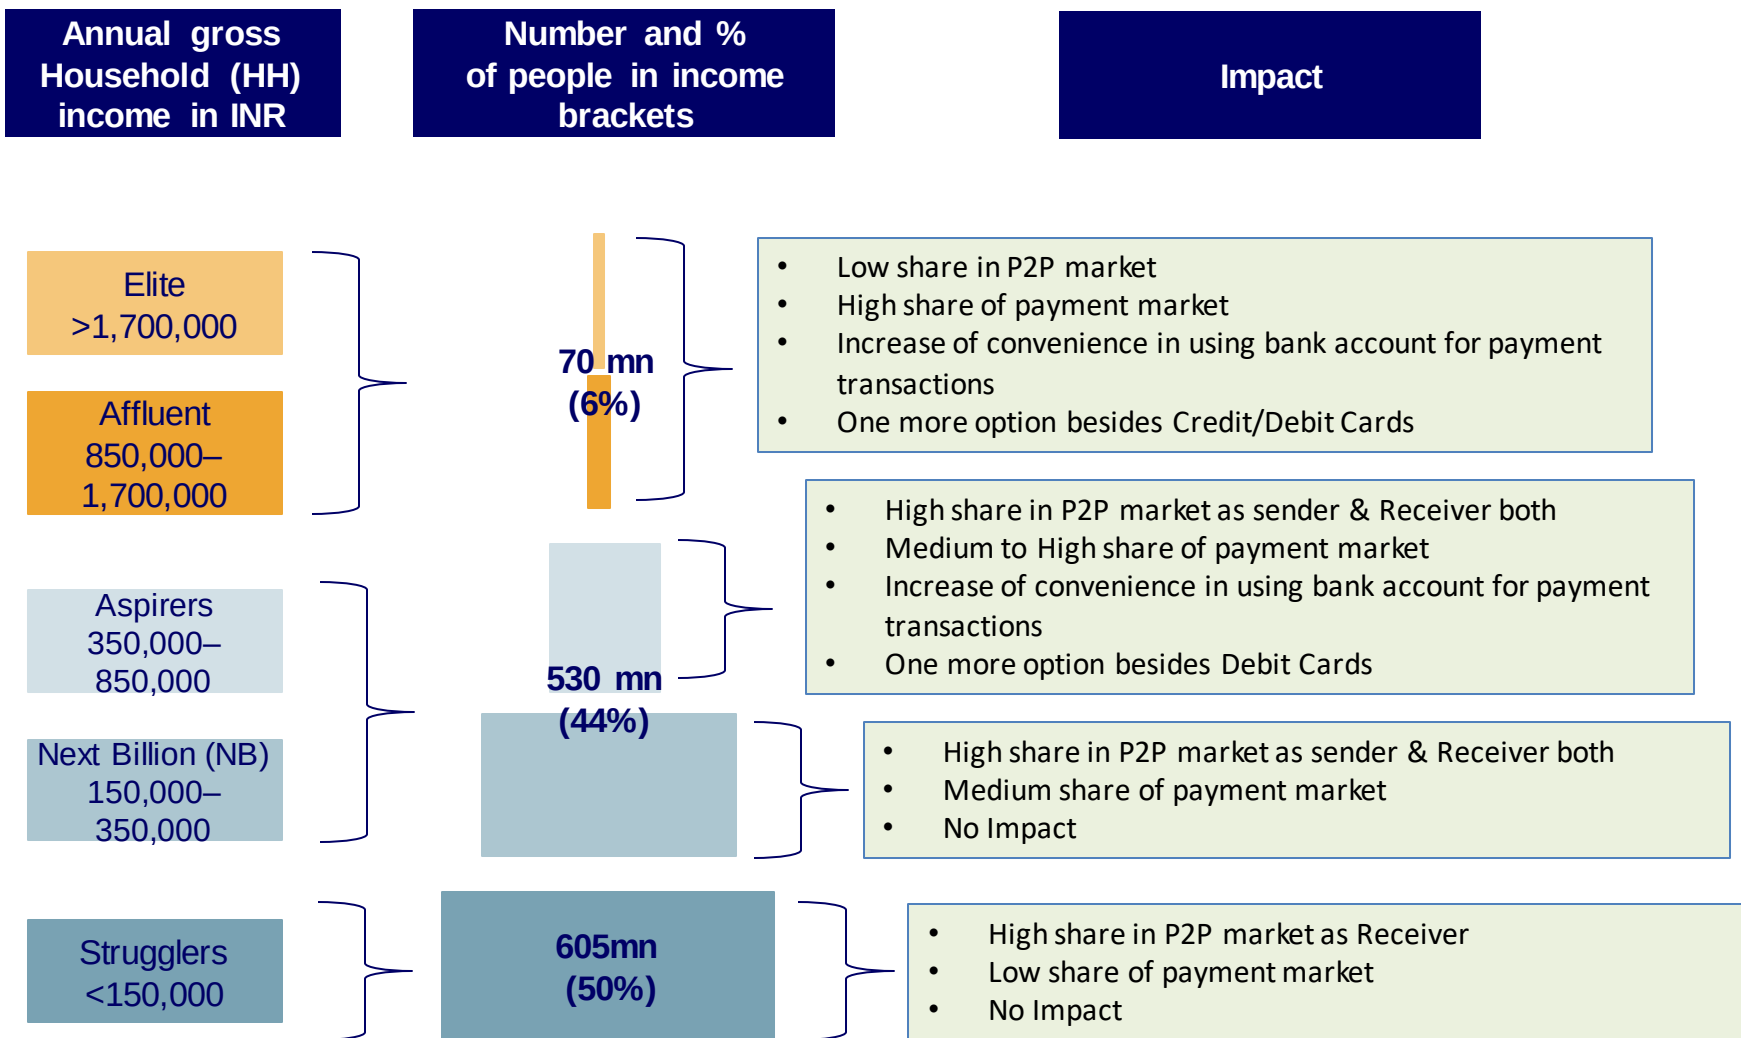

P2P payment market and services

**P2P payment market size
of 600,000Crore**

- 90% of population driving 84% of market
- Very limited choice and access mostly depending on Cash and informal means and recently IMPS with wallet to Bank A/c service resulting in handful of non-banks being able to contribute 40-50% IMPS transactions.

UPI: Impact on Customers and Fintech players

UPI Possible Future

- **Possible future services**
 - **Become true 'Unified Payment Interface' from 'Bank Payment Interface'**
 - **Payment Gateway option for digital merchants**
 - **PoS alternative for small Kirana and other retail store to collect digital payment**
 - **Paperless payment collection from borrowers for Fintech players**

Thank You
