

Financial Data Analysis III

Programming with R : A Pragmatic Introduction

Thursday, September 22, 2011

Description:

The Rmetrics Association (Asia Chapter), in collaboration with IGIDR, is offering a high quality workshop in programming with R.

The course consists of four blocks, composed of 50% lecture, 20% examples and 30% case studies.

This workshop on *Programming with R : A Pragmatic Introduction* is being conducted as a part of the series of workshops on *Financial Data Analysis Using R*, from 22nd September to 24th September, 2011, complemented by a two day workshop on *Panel Data Analysis using R*.

Course Topics:

Session 1: Basics - Overview of R, Basic Syntax, Built-in Functions, R Objects & Data Structures, Logic, Loops and Control Structures, Effective Debugging in R.

Session 2: Data Manipulation - Importing/ Exporting Data, Data Structures, Manipulation of Data Structures.

Session 3: Graphics with R - Overview of Graphics in R, Devices & File Formats, High Level Plotting.

Session 4: Basic Statistics with R - Descriptive Statistics, Distribution Functions, Random Number Generation, Hypothesis Testing and Parameter Estimation.

Course Audience:

This is a hands-on classroom introductory training course for R. It is well-suited to finance and risk managers as well as students, academicians who desire comprehensive introduction to the R/Rmetrics software environment.

* Participants are required to bring Laptops with them.

Pricing Information:

	For Students & Academia (INR)	For Industry Professionals (INR)
Programming with R Workshop	5,000*	10,000*

*Fees are inclusive of all taxes. Fees include Course Material, Lunch and Light Refreshment.

- The course also offers Rmetrics e-books at discount.
- For more details and availability of books please visit <https://www.rmetrics.org/ebooks>
